

# Ponce DeLeon Lighthouse

## November 13th, 2018

Join us for a wonderful tour! We will start our day with a docent led tour of the Ponce Inlet Lighthouse. This lighthouse is an example of one of the most authentic and best preserved light house stations in the United States today. This 175 ft tall lighthouse has 203 steps to the top, and you will have an opportunity to climb to the top if you so choose! After our tour, we will have lunch overlooking the ocean at the fabulous restaurant "Hidden Treasures". After lunch we will visit the Marine Science Center for a docent led tour of this amazing facility! The Marine Science Center is a rehabilitative center for injured sea turtles and birds, and you will get to have a hands on experience with some of the sea life! You won't want to miss this great tour!
